Steen & Strøm AS

Registration Document

Important notice

This Registration Document prepared according to Regulation (EU) 2017/1129, is valid for a period of up to 12 months following its approval by Norwegian FSA. This Registration Document was approved by the Norwegian FSA on 20th May 2020. The prospectus for issuance of new bonds or other securities may for a period of up to 12 months from the date of the approval consist of this Registration Document and a securities note to each issue and subject to a separate approval.

The Registration Document is based on sources such as annual reports and publicly available information and forward looking information based on current expectations, estimates and projections about global economic conditions, the economic conditions of the regions and industries that are major markets for the Company lines of business.

A prospective investor should consider carefully the factors set forth in chapter 1 Risk factors, and elsewhere in the Prospectus, and should consult his or her own expert advisers as to the suitability of an investment in bonds, including any legal requirements, exchange control regulations and tax consequences within the country of residence and domicile for the acquisition, holding and disposal of bonds relevant to such prospective investor.

The manager and/or affiliated companies and/or officers, directors and employees may be a market maker or hold a position in any instrument or related instrument discussed in this Registration Document and may perform or seek to perform financial advisory or banking services related to such instruments. The managers corporate finance department may act as manager or co-manager for this Company in private and/or public placement and/or resale not publicly available or commonly known. Copies of this Registration Document are not being mailed or otherwise distributed or sent in or into or made available in the United States. Persons receiving this document (including custodians, nominees and trustees) must not distribute or send such documents or any related documents in or into the United States.

Other than in compliance with applicable United States securities laws, no solicitations are being made or will be made, directly or indirectly, in the United States. Securities will not be registered under the United States Securities Act of 1933 and may not be offered or sold in the United States absent registration or an applicable exemption from registration requirements.

The distribution of the Registration Document may be limited by law also in other jurisdictions, for example in Canada, Japan, Australia and in the United Kingdom. Verification and approval of the Registration Document by the Norwegian FSA implies that the Registration Document may be used in any EEA country. No other measures have been taken to obtain authorisation to distribute the Registration Document in any jurisdiction where such action is required, and any information contained herein or in any other sales document relating to bonds does not constitute an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not lawful or in which the person making such offer or solicitation is not qualified to do so or to anyone to whom it is unlawful to make such offer or solicitation.

The content of the Prospectus does not constitute legal, financial or tax advice and potential investors should seek legal, financial and/or tax advice.

Unless otherwise stated, the Prospectus is subject to Norwegian law. In the event of any dispute regarding the Prospectus, Norwegian law will apply.

1. Risk factors

As the Company is the parent company of the Group and primarily a holding company, the risk factors for Steen & Strøm AS and the Group are deemed to be equivalent for the purpose of this Registration Document.

Investing in bonds issued by Steen & Strøm AS involves inherent risks.

The risks and uncertainties described in the Registration Document are risks of which the Company is aware and that the Company considers to be material to its business. If any of the following risks were to occur, the Company's business, financial position, operating results or cash flows could be significantly and negatively affected, and the Company could be unable to pay interest, principal or other amounts on or in connection with the bonds.

In the category below, the Company sets out the most material risks, in its assessment, taking into account the negative impact of such risk on the Company and the probability of its occurrence.

Prospective investors should consider, among other things, the risk factors set out in the Prospectus, including those related to the bonds as set out in the Securities Note, before making an investment decision.

An investment in the bonds is suitable only for investors who understand the risk factors associated with this type of investment and who can afford a loss of all or part of their investment.

Risk Factors

Group activities involve different kinds of risk; market risk, credit risk, liquidity risk and risks related to floating/fixed interest rates. The board of directors sets the goals and frameworks for how financial risk is managed.

Market risk

The main driver of the operational business of the Group is the development in retail spending.

The leases are mainly turnover-based, but with minimum lease provisions. The minimum rent has historically accounted for more than 90% of rental income. Changes in the values of the properties will be closely related to the tenants' ability and willingness to accept growth in the rent level over time. In order for the Group to be able to show growth in the rent level going forward, it is crucial that overall retail turnover at the shopping centers also show growth in the future. The higher the turnover growth at the centers, the greater the negotiating power the shopping center manager has in renegotiating / renewing or entering into new leases.

Since 26 February 2020, the CoVid-19 epidemic has gradually spread over Norway, Sweden and Denmark. Steen & Strøm response to this situation is ensuring that its operations are compliant with any measures enacted by the authorities on a real time basis and adjusting operation organization and resources to ensure the best possible health and safety conditions while maintaining business continuity.

At 31 March 2020, footfall in Steen & Strøm malls had fell by 10.22% (the last 12 months the footfall is down 1.9%). It is too early to determine the situation's impact on the contractual obligations of our retailers or to estimate the effect of any case-by-case support measure the group may decide upon, particularly as regards adapting payment deadlines.

Over time, changes in the pattern of trade will affect the proportion of trade that occurs in shopping centers in general and may affect the market share of the centers in the Company in particular. There has been a tendency for an increasing share of e-commerce. In addition,

Registration Document

increased environmental focus with tolls and closed streets in cities might affect the attractiveness of the individual shopping centers. If the shopping centers' market share in general, or the market share of the centers in the Group, is reduced, this could adversely affect the rent level.

In the case of major redevelopments or special tenant adjustments, the Group may also incur costs that for a period reduce the net rent level after ownership costs.

If any of these situations occur this can have a material adverse effect on the Group's business, results and financial position, and may affect the Company's ability to perform its obligations under the bonds.

Liquidity risk

The liquidity risk arises from the Company's need to be able to finance operations and investments for some time ahead. The liquidity risk is managed by always having reserves in the form of liquid current assets, unused credit facilities and un-mortgaged properties. We aim to limit liquidity risk that arises from the refinancing of group debts by scheduling maturity dates for loans at different times of the year and by having sufficient reserves to cover short-term refinancing needs. The Group's strategy is to, at all times, have sufficient cash and cash equivalents or credit facilities to be able to finance operations and investments for the next three years.

Interest rate risk

Interest rate risk arises in the short and medium term, following the part of the Company's debt which has a floating interest rate. The loan portfolio currently has a combination of floating and fixed rates, where long-term rent agreements have been made for approximately 73% of the Group's loan portfolio.

Credit risk

The Group's credit risk is primarily related to the ability of the tenants to pay rent. Steen & Strøm has more than 1 600 leasing contracts. Prominent, stable retail chains form the major group of our tenants. Clear routines have been established on credit check of tenants before contract signing and follow-up of due invoices. The Group loss on receivables is limited.

Currency risk

Changes in exchange rates involve both direct and indirect financial risk for the Group. The currency exposure is mainly limited to the equity portion of shopping center investments in Sweden and Denmark. Hedging is partly achieved by using the same currency for assets and liabilities in each country.

2. Persons responsible

Persons responsible for the information

Persons responsible for the information given in the Registration Document are as follows:
Steen & Strøm AS, Støperigata 1, 0250 Oslo, Norway.

Declaration by persons responsible

The legal name of the Company is Steen & Strøm AS, the commercial name is Steen & Strøm. The Company's registered address is Støperigata 1, 0250 Oslo, Norway. The mailing address of the Company is Postboks 1593 Vika, 0118 Oslo, Norway. Company's telephone number is +47 23 21 35 00.

Website: www.steenstrom.com¹

Steen & Strøm is a shopping center company in Scandinavia. Steen & Strøm operates 18 shopping centers; 10 centers in Norway, 5 centers in Sweden and 3 centers in Denmark.

Steen & Strøm has a business concept to *be a proactive, professional, business-oriented and profitable owner, developer and commercial operator of the leading shopping centers situated in the most attractive marketplaces in Scandinavia.*

The object of the Company according to paragraph 3 in the Company's articles of association is to invest, manage, develop, redevelop and maintain real estate, including construction operations, retail operations and anything in connection herewith, including purchase and sale of shares and participation in other companies as shareholders or otherwise.

Steen & Strøm AS, the parent company of the Group, is primarily a holding company. In addition to holding shares directly or indirectly in its subsidiaries, the group top management is employed by Steen & Strøm AS. Steen & Strøm had 143 employees by the end of 2019, whereas 76 of these are employed in Norway. The Group's main office is located in Oslo. The Group also has offices in Copenhagen and Stockholm in addition to the offices at the shopping centers.

Subsidiaries are entities controlled by Steen & Strøm AS. Control is achieved when the Company has power over the investee, is exposed, or has rights to variable returns from its involvement with the investee and has the ability to use its power to affect its returns. Control normally exists when the Group has more than 50 % of the voting power through ownership or agreements.

Associated companies are entities where the Group has significant influence but not control. Significant influence is the power to participate in the financial and operating policy decisions of the associate but is not control or joint control over those policies.

For a list of all subsidiaries of Steen & Strøm AS, see note 4.1 of the consolidated financial statements 2019. Please see the cross-reference list in section 11 in this Registration Document. The Company is not dependent on other than those included in the Group. In terms of liquidity, the Company is dependent on its subsidiaries.

The Group's main activity is that of being a lessor of the Group's investment properties. Leases are described in note 9 of the consolidated financial statements 2019. Please see the cross-reference list in section 11 in this Registration Document.

Steen & Strøm AS is rated A- with negative outlook by S&P Global Ratings Europe Limited. Companies rated A- from S&P are assessed to have strong capacity to meet financial commitments, but somewhat susceptible to economic conditions and changes in circumstances.

HISTORY

Steen & Strøm can trace its history back more than 200 years. Samuel Strøm in 1797 opened a little wine shop and general store at Kongens gate 23 in Oslo and got the name "Steen & Strøm" in 1856.

In 1991, Agora Drift AS took over the management of Steen & Strøm Magasin and a further five shopping centres and three hotels, which was the start of an expansion phase which created the basis for the Steen & Strøm group.

Steen & Strøm Invest AS was listed on the Oslo Stock Exchange in July 1994 and delisted September 2007.

On 25 July 2008 Klépierre and Stichting Depositary APG Strategic Real Estate Pool (APG) jointly entered into an agreement to acquire 100% of the outstanding share capital of Steen & Strøm ASA. APG is the pension fund for employers and employees in service of the Dutch government and the educational sector. Klépierre SA is a France-based real estate company focused on the commercial property market, mainly shopping centres and office properties.

6. Business overview

Steen & Strøm operates 18 shopping centers in Scandinavia; 10 centers in Norway, 5 centers in Sweden and 3 centers in Denmark. The main driver of the operational business of the Group is the development in retail spending. Steen & Strøm is an enterprising company. Continuously seeking to meet the consumers' increasingly complex needs, which encompass safe and effective shopping, exciting experiences and attractive meeting places.

The Group's activities in shopping centres and projects consist mainly of buying, selling and operating investment property, in addition real estate projects. The ownership of shopping centres represents the greater part of the Group's business. Shopping centres provide stable income. The Group has entered into lease contracts – principally with large, soundly based retailers.

The Group is structured into operating segments which are geographic regions:

Norway

Steen & Strøm has 8 fully owned shopping centers and 2 partly owned** shopping centers in Norway.

Sustainable development²

Steen & Strøm has for years, managed a sustainability program with the vision of being one of the leaders within corporate responsibility in our industry. Shopping centers are important social players in the local communities' and this constitute the best possible basis for influencing both the environment and the society around in a positive direction.

To meet our vision of sustainability, Steen & Strøm together with majority owner Klépierre, launched the new CSR approach Act for Good in 2018. Act for Good further combines the requirements of operational excellence with environmental, societal and social performance and rests on three pillars:

- Act for the Planet
- Act for Territories
- Act for People

Steen & Strøm aims to reduce the environmental impact in both the near and distant surroundings, by systematically analysing and mapping each shopping center's environmental impact, definition of targets for the sustainable development and continuous improvements by individual actions, measurement and reporting.

Steen & Strøm has implemented ISO-14001 since 2004. In January 2020 the Group went through a recertification audit carried out by RISE Technical research institute.

The pollution from the Group's activities is limited. However, Steen & Strøm has put a lot of effort into environmental issues and developed individual action plans to improve the Group's environmental performance level. Renewable Energy Guarantees of Origin (GO) exists for all power purchased by Steen & Strøm in Norway and Sweden and Denmark. Moreover, for our center Emporia in Malmö, Sweden, all energy supplied is of renewable origin or green house gas compensated, and as such the center's energy supply is carbon neutral.

Steen & Strøm is also investing in new and existing centers to create the best retail destinations for the future; hence, responsible decision making in relation to development projects is required. In major development projects we comply with the international classification system "BREEAM", aiming for level "excellent". In the course of 2019 we also certified our whole portfolio of existing centres BREEAM in-use with levels of Very Good and Excellent.

In 2019, Steen & Strøm's participation in the annual Global Real Estate Sustainability Benchmark ("GRESB") confirmed that the Group is rated among the most sustainable shopping center companies in the world: Steen & Strøm increased the overall score from with six points to 91/100 and once again classified as "Green Star". "Green Star" is the highest level of rating in the GRESB quadrant benchmark methodology.

Market overview

Steen & Strom's competitors are all providers of retail space, including shopping centers, wholesale or freestanding stores. In addition, e-commerce has gradually become a bigger competitor. At present, the share of e-commerce is only about 7%, but the share is increasing. However, it varies from segment to segment. Industries such as electronics, textiles, fashion, sports and leisure are at present the sectors most challenged by e-commerce, while grocery and service industries are less affected.

When it comes to competition in the shopping center segment, the industry is relatively consolidated with a few owners. In Norway, the largest owners are Olav Thon, Citicon, Scala, Coop Eiendom, KLP and Storebrand. In Sweden, Unibail, Citycon, Atrium Ljungberg, Eurocommercial Properties, Skanska Real Estate and Stadsrum are the largest owners, while in Denmark the largest shopping center operators are Danske Shopping Centers of DADES.

7. Administrative, management and supervisory bodies

BOARD OF DIRECTORS STEEN & STRØM AS:

Name	Position	Principal activities outside the Group
Jean-March Jestin	Chairman of the Board	Chairman of the Klépierre Executive Board

CoVid-19

Since 26 February 2020, the CoVid-19 epidemic has gradually spread over Norway, Sweden and Denmark. Steen & Strøm response to this situation is ensuring that its operations are compliant with any measures enacted by the authorities on a real time basis and adjusting operation organization and resources to ensure the best possible health and safety conditions while maintaining business continuity.

At 31 March 2020, footfall in Steen & Strøm malls had fell by 10.22% (the last 12 months the footfall is down 1.9%). It is too early to determine the situation's impact on the contractual obligations of our retailers or to estimate the effect of any case-by-case support measure the Group may decide upon, particularly as regards adapting payment deadlines.
